

PORTABLE GAS POWERED DRILLS

With over 25 years of experience in the market, no others can match the proven reliability and performance of these gas powered drills.

Features forged steel connecting rod, wide fiber lined clutch shoes, solid steel cut & machined gears, and heavy duty centrifugal clutch. Large fuel tank allows long run time.

- 20:1 GEAR REDUCTION
- 1.4 HP
- VARIABLE SPEED
- ELECTRONIC IGNITION
- 50:1 GAS OIL RATIO

REVERSIBLE ENGINE DRILL

Cat. No. HL27-R

The HL27-R's 26cc engine is powerful enough to bore 15/16" holes through utility poles and cross arms with ease! This easy starting, "UTILITY TOUGH" engine drill weighs only 12 lbs. A centrifugal clutch prevents twisting and reverse feature quickly retracts bits.

ENGINE DRILL

Cat. No. HL27

This model is the same as HL27-R with the exception of the reversing feature. This 11 lb drill features a gear box locking mechanism that allows the unit to be rotated in order to manually extract a bit in the event one may have become bound. **Use bits (below) with Side Lip/Cutting Spur for easy extraction while at full forward power.**

Gas Powered Drills

TWO CYCLE ENGINE OIL

Cat. No. TKOIL-220

Premium multi-ratio formula for all two cycle engines comes in a 16oz., self-measuring bottle.

Just squeeze the bottle until desired amount of oil is trapped in the upper chamber and pour.

QUICK CHANGE CHUCK

Cat. No. HLQC-7

1/2-20 female threaded end fits engine drill allowing use of 7/16" impact drive pole bits.

POWER POLE BITS (7/16" shank)

- 7/16" Hex shank fits standard 1/2" chuck
- Single twist type with single spur, cutter & side lip
- Bores smooth clean holes for easy extraction
- Hollow center twist design for fast, continuous flow of chips
- For boring creosote poles & construction timbers

TEFLON COATED POLE BIT

These teflon coated pole bits are also known as **Black Widow or Wood Owls**.

They are designed for making deep, smooth cuts in utility poles, railroad ties, pressure-treated lumber and wet/frozen wood.

- Teflon coated to resist heat and friction
- Spurred cutting edge for fast, even cutting
- Twist design for clean chip removal
- Course, burr-free lead screw for quick, on target starts without material build-up.
- Perfectly concentric for even, easy cutting of accurate diameter holes.
- Carbon Steel construction is heat treated for durability

Gas Powered Drills

IMPACT BITS (with quick change shank)

- Single spur, cutter, and side lip bore through creosoted poles without clogging
- Extra-long twist is ideal for boring large poles
- Hex shank design for use in impact wrench drills

Size	7/16" Quick Change Shank	
	15" Twist 18" O.A. Cat. No.	21" Twist 24" O.A. Cat. No.

"NAIL EATER II" IMPACT BITS

- Quickly bore through creosoted and salt treated utility poles
- Resists wear and eats through nails and staples
- Self feeding screw point draws the bit through the wood

Best used with *reversing* drills and impacts
